

OSINT Investigation: Historical Site Reconstruction

Date: February 4, 2026

Investigator: John Wesley

1. Objective

To reconstruct the corporate structure/web presence of a defunct entity (Sendy Ltd) as it appeared prior to cessation of operations.

2. Methodology

Tool Used: The Internet Archive (Wayback Machine)

Target URL: `sendyit.com`

Timeframe: 23:06:45 (Pre-closure)

3. Findings

Using the Wayback Machine, I successfully retrieved a snapshot of the domain dated 28th June, 2022.

Visual Evidence: The homepage promoted “We help you grow and do more”, “Easier trade for Africa”

We help you
grow and do more

We bring together everything that's required for E-commerce and Consumer brands to ship goods to consumers and retailers across Africa. It's our mission to make trade easier.

[WATCH VIDEO](#)

A fully integrated suite of distribution products.

Verified URL: <https://web.archive.org/web/20220628230645/https://www.sendyit.com/>

4. Forensic Utility

This investigation demonstrates the ability to recover "lost" digital evidence, essential for insolvency cases, prior art verification, or proving historical liability.
